

## SPACE COAST CONSTELLATION CONSTERNATION I

On this worksheet you will work stations representing the constellations that are close to our constellation.

There is no time limit and the starting date will be 1 January 2010.)

The wild cards will be those stations which have 3 letter suffixes, in English, which either spell a 3 letter word or can be unscrambled to make a word. CURRENT Wild Cards: N6USP=PUS; KB7ARN=RAN; W1SIX=SIX; KA9ADD=ADD; K4EEF=FEE; WD5AFR=FAR; W4JAG=JAG; K6ASK=ASK; N5DAS=SAD; PY2DBU=DUB; DF0TEN=TEN; DH1PAL=PAL; K3TUJ=JUT; KF4GRA=RAG; W3TEY=YET; WA6FGI=FIG; W6ASP=ASP; K5CRA=CAR; KA5EYH=HEY; WB6OJB=JOB; W5RTA=RAT; KD4RGU=RUG; WD4EWB=WEB; VE9TEN=TEN; W8JWA=JAW; KB6UPG=PUG; KR7YAN=NAY. There are a few others that I have not used, but these are the wild cars. As some of these stations are not very active, you may use 4 wild cards. You may use your own special also, but not as a wild card..

Due to the difficulty in finishing this worksheet, 200 on air points will be added to your Space Coast point value upon completion.
